

### G2-M2-Lesson 3

Use your centimeter ruler to answer the following questions.

1. The picture of the animal track is about 4 cm long.

I know how to accurately line up my centimeter ruler to measure the picture of the animal track. Since my hash marks are labeled, I don't have to count each mark; I can easily see that the picture is 4 centimeters long.

2. Measure the lengths of sides A, B, and C. Write each length on the line.

How much shorter is Side C than Side B? 1 cm

$$9 - 8 = 1$$

I can use my centimeter ruler to measure the length of each side. Then, I can compare the lengths of two sides by subtracting.
